ULTIMA™ ZT / ZTX  
ALL-SEASON PLOW

## THE ALL-SEASON PLOW FOR THE ULTIMA™ ZT / ZTX DOES IT ALL!

- Specifically designed to fit Ultima™ ZT and ZTX zero-turn mowers.
- 52" 12-Gauge steel blade can move snow, dirt, gravel and mulch.
- Single handle with comfort grip allows the operator to lift/lower and adjust the angle of the blade (left, right or center) without leaving the operator's seat.
- Adjustable shave plate optimizes performance with different tire sizes and is reversible to extend the life after normal wear.
- Robust bracket design keeps the blade at the proper height in the transport mode.
- Extension kit (part number: 759-05742) available to make the plow 60" (for Ultima™ ZT2 and ZTX models only).
